

MY-TRACK

REAL TIME GPS TRACKING SYSTEMS

Installation Instructions

1. Connect the GPS tracker with a 12V cable **directly** from the vehicle battery through a fuse (2-5A)
2. Connect your cable from your vehicle to the cable **before** the connector on the tracker
3. The **black** (or Red-black) wire is the Negative (-), and the **Red** the Positive (+)
4. **DO NOT cut – DO NOT crimp** the GPS tracker cables or connector cables – especially the black part!
5. Put the GPS tracker in front of your navigational instruments (bike) or in front of the par bridge (car), so to be open sky above it.
6. Put the GPS tracker in a horizontal - stable position with tie raps or tape.
7. In case you put tape, be sure there is a plastic bag over the tracker, NOT tape directly on the tracker!
8. The **deposit** for any damage of the GPS tracking merchandise is 150€, and you have to give back the damaged tracker. In case of tracker's lost, the cost is 200€.
9. Broken or damaged case : costs 30€ - 50€ - Cut cables or damaged connectors cost 30€ - 10€

Thank you for your cooperation – Enjoy the race!
